About AltaMed Health Services

AltaMed understands that when people have health care that looks at their individual health needs and respects their cultural preferences; they grow healthy—and help their families do the same. So we’re delivering complete medical services to communities across Southern California. Since 1969, our team of qualified multicultural and bilingual professionals—from these same communities—has focused on eliminating barriers to primary care services, senior care programs, and even essential community services. With nearly 50 accredited health centers and service facilities, we remain committed and ready to help you grow healthy at any age.
