

COVID-19 Outdoor Evaluation and Testing Sites

Updated: April 16, 2020

AltaMed is making every effort to protect the community and ensure that we have the resources available to continue to meet all health care needs. To protect our patients, staff, and surrounding community, AltaMed has established six outdoor medical evaluation and testing sites in Los Angeles and Orange Counties to limit COVID-19 exposure inside its health centers and increase access to care for the community.

Patients and community members are being asked to call the **Patient Service Center** at **(888) 499-9303** before visiting any AltaMed location in order to determine the best option for care. Patients may be scheduled for a telephone visit or directed to an AltaMed outdoor evaluation site.

Upon arrival, patients are screened for COVID-19 symptoms from their car. Depending on the initial assessment, patients are directed to park and walk in to the clinic or asked to remain in their car and proceed through the outdoor evaluation.

Those who state they are experiencing COVID-19 symptoms (fever, dry cough, shortness of breath) or think they have been exposed (travel, contact with someone else exposed), will be assessed in their vehicle.

Medical staff will determine whether care should be continued at home or at another medical facility. Testing is ordered as appropriate, according to Public Health guidelines.

Frequently Asked Questions

Will I get tested for COVID-19 at an evaluation center?

Not necessarily. COVID-19 testing will be done for those who meet Public Health criteria and have an order from their physician. As tests become more available, testing criteria may be expanded per Public Health protocols.

Do you have to be an AltaMed patient to visit an evaluation site?

As a community health center, we don't turn anyone away. Those who would like their symptoms to be evaluated in person should call **(888) 499-9303** before visiting any AltaMed location.

If not everyone is tested, why are these sites important?

By reducing the number of symptomatic patients coming inside the clinics, we lower the risk of exposure for patients who require chronic disease management, prenatal visits, pediatric check-ups, and other routine screenings. This ensures we're able to provide care for everyone through this pandemic and beyond.

Before visiting any AltaMed location, patients must call

(888) 499-9303

Los Angeles County residents can also register at covid19.lacounty.gov/testing/

Outdoor Evaluation and Testing Sites

Los Angeles County

**AltaMed Medical and Dental Group —
